

The Big Green Legacy

Sustainability Cities Case Study

Sharjah Sustainable City

Saving and Growing

The city saves water and people grow food in gardens and on walls!

Easy Moving

People can walk and ride bikes, there's a special bus that drives itself!

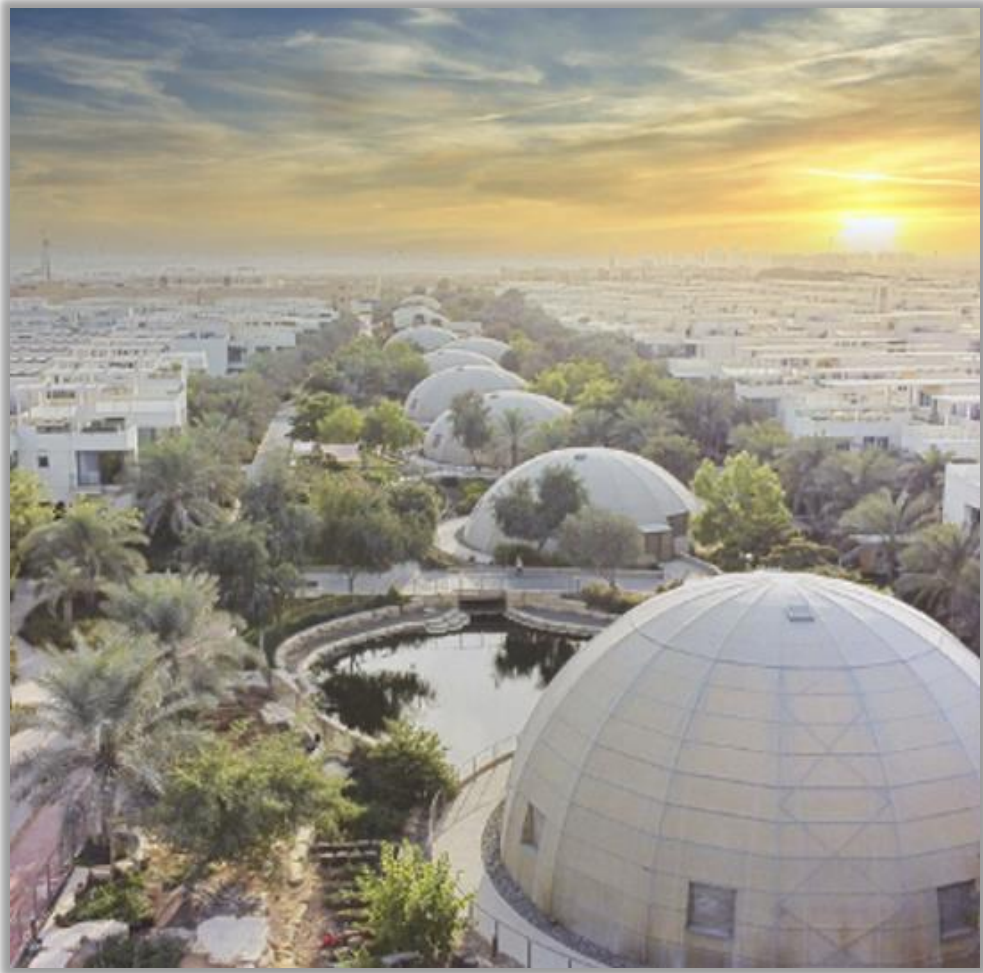

Clean Cars

The city has places to power clean cars.

Cool Houses

Houses stay cool, they have special windows. This helps save power.

Dubai Sustainable City

Cool Houses

Houses have solar panels on top. These use the sun to make power.

Green Places

There are lots of green spaces. People grow food and children can play outside.

Travel

There are not many cars, people walk and ride bikes.

Masdar City

Clean Power

The city uses clean power, this helps the Earth.

Smart Houses

Houses use less water and power.

Cool Streets

The streets are small and shady. This makes the city feel cool.

Smart Windows

Windows keep the sun out. This helps keep houses cool.
