

## **Response Record Sheet**

The Big Green Legacy: Lesson 3

Level: Upper Primary

**Instructions:** Use this sheet to record the total number of responses in your class ready to submit on the form: <http://youth.greeningeducation.ae/> > Click Educators > Click Upper Primary > Click submit class responses under lesson 3 (<https://youth.greeningeducation.ae/upper-primary-submit-eng.html>)

### **1. How hopeful are you that we can live with the changes caused by climate change?**

|                |             |               |         |              |
|----------------|-------------|---------------|---------|--------------|
| Total Students |             |               |         |              |
|                | Not hopeful | Quite hopeful | Hopeful | Very hopeful |

### **2. Is climate change important to you?**

|                |               |                 |           |                |
|----------------|---------------|-----------------|-----------|----------------|
| Total Students |               |                 |           |                |
|                | Not important | Quite important | Important | Very important |

### **3. How worried are you about climate change?**

|             |   |   |   |   |   |              |
|-------------|---|---|---|---|---|--------------|
| Not Worried |   |   |   |   |   | Very Worried |
|             | 1 | 2 | 3 | 4 | 5 |              |

### **4. In school, I've learned about...**

|   | Total students who said yes | Total students who said no |
|---|-----------------------------|----------------------------|
| what makes climate change happen            |                             |                            |
| how the Earth is changing                   |                             |                            |
| how climate change affects different people |                             |                            |

### **5. In school, I would like to learn MORE about...**

|                                  | Total students who said yes | Total students who said no |
|----------------------------------|-----------------------------|----------------------------|
| what makes climate change happen |                             |                            |
| how the Earth is changing        |                             |                            |
| how to help the Earth            |                             |                            |

|   |  |  |
|---|--|--|
| how climate change affects different people |  |  |
|---|--|--|

**6. Do you take part in activities that help the Earth?**

|                |                     |                   |                            |                 |
|----------------|---------------------|-------------------|----------------------------|-----------------|
| Total Students |                     |                   |                            |                 |
|                | No, I don't want to | No, but I want to | Yes, but I want to do more | Yes, I do a lot |

**7. Do you like to do these activities inside or outside?**

|                       | Total students who said inside | Total students who said outside |
|-----------------------|--------------------------------|---------------------------------|
| playing games         |                                |                                 |
| sports and exercise   |                                |                                 |
| learning and studying |                                |                                 |

**8. I know how I can use less energy at home.**

|                                    |                                   |
|------------------------------------|-----------------------------------|
|                                    |                                   |
| Total students who said <b>yes</b> | Total students who said <b>no</b> |

**9. I know how I can use less water at home.**

|                                    |                                   |
|------------------------------------|-----------------------------------|
|                                    |                                   |
| Total students who said <b>yes</b> | Total students who said <b>no</b> |

**10. I know ways to reduce, reuse and recycle.**

|                                    |                                   |
|------------------------------------|-----------------------------------|
|                                    |                                   |
| Total students who said <b>yes</b> | Total students who said <b>no</b> |
