The Big Green Legacy: Lesson 6

Level: Upper Primary

Instructions: Read the story and circle the correct answers (True or False).

Sara's Circular Economy Adventure!

Sara learned about the circular economy at school. She learned it's about using things again and again, not just once.

At home, Sara saw an empty plastic bottle. She took the bottle to a special shop. The shop cleaned the bottle and filled it with juice to sell again.

Sara's old t-shirt was too small. She took it to a clothes shop that makes new clothes from old ones. They turned her t-shirt into part of a new bag.

In their garden, Sara and her family put their food waste in a special bin. It became food for worms, which made rich soil for growing new fruits and vegetables.

Sara realized that in a circular economy, things don't become trash!

You can make new things, again and again!

1. Sara learned about the circular economy at school.

True

False

2. In the story, the empty plastic bottle was thrown away.

True

False

3. Sara's old t-shirt was turned into a new bag.

True

False
